

FIRED IN THE FURNACE

Carnegie Getting Ready to Begin Work.

The Strikers Have Decided to Depend Wholly on the Boycott.

Haverhill, Pa., July 15.—Short puff of smoke from the iron-pipe machine shop and the annealing shop in the Carnegie works today convinced both locked-out men and troops that the managers intended to keep their word and start the mills in operation. The newly-recruited strikers were the sign of business in the works.

An inquiry developed the fact that the pumps in the two most important departments had been started preliminary to a general resumption of business. The mills were locked out through the reports of their pickets, which do not consider a considerable number of men had entered the town and wondered where the company was securing workmen.

The officers of the works have said that about forty men, mainly laborers, with a few men from the other Carnegie works, were at work getting the machinery ready for use. It is not the intention of the mill owners to employ new men until tomorrow or Monday.

The locked-out men offered no objection to the sign of activity and kept away from the vicinity of the works.

Three companies of infantry carried the high fortifications and stood ready to resist any interference. None came, and the apparatus which was being used by the strikers since the arrival of the troops continued throughout the day.

Shore Letter From Grand Master Powderly to Harrison.

SEBASTON, Va., July 15.—General Master Workman Powderly, Grand Master of the Order, has written a letter to President Harrison and another to Governor Patton calling attention to the fact that the laws of the United States and of Pennsylvania have been violated by the invasion of the Pinkerton.

In his letter to the president Mr. Powderly points out that an armed body of men in the United States flag and in the colors of the Pinkerton, and in the name of the state or any county or municipality, had come up the Monongahela river and killed a number of persons.

Mr. Powderly says that whoever violates the laws of the United States in ordering these men to invade Pennsylvania is a traitor and should be punished accordingly, and asks for an investigation.

EXPECTS MORE BLOODSHED.

Congressman Oates on the Situation at Homestead.

WASHINGTON, July 15.—Chairman Oates, of the committee appointed to investigate the Homestead trouble, returned today impressed with the belief that there is more bloodshed in store for the inhabitants of that place.

One of the curious features of the strike is the boycott which the servants at the clubhouses have put upon the women and the children of the strikers.

BERLINGAT AT UTMENALD.

CINCINNATI, July 15.—An afternoon party at the Stone Standard building, well-known in this city by a certain well-clothed detective agency 270 or 280 men. There were gathered one by one from the habitues of various downtown saloons and street corners by agents of the Stone Standard.

NO CRIMINAL.

The Pittsburg Mills Will Be Run by Non-Union Men.

PITTSBURGH, July 15.—The men at the union mine on a charge of death by twenty-eighth and thirty-third streets, have locked themselves out and they will have to wait till the company unlocks the gates before they go back.

A NINE-HOUR DAY.

How Would the Governor Pledge Surprised?

DETROIT, July 15.—During the past five years the firm of Plinger & Smith, shoe manufacturers, have held yearly conferences with their employees to effect an amicable adjustment of wages for the ensuing twelve months. One of these conferences between the firm and a committee from their employes took place last week.

After the scale of wages for the coming year had been talked over and after the satisfaction of both sides, Frank Plinger, on behalf of the firm, announced that beginning tomorrow the hours of work would be reduced from ten hours to nine hours a day, but no reduction would be made in wages on any account.

The new time schedule applies to all departments of the factory. This is the first time that such a measure has been taken, and the firm has no doubt that it will be successful. The number of employees on the firm's payroll last week was 711.

GOING ON THE SUPREME BENCH.

Why Judge Graham Would Not Accept the Nomination.

INDIANAPOLIS, Ind., July 15.—It is reported here that Judge Graham is to be given a seat on the United States Supreme Court. The offer was practically made to Judge Graham just before the people's ratification of the new constitution.

It was the reason why Judge Graham absolutely and finally refused to take a place on the high court.

The president hopes by this action to heal the breach between the Harrison and anti-Harrison forces in Indiana.

IT WAS TREASON.

Shore Letter From Grand Master Powderly to Harrison.

SEBASTON, Va., July 15.—General Master Workman Powderly, Grand Master of the Order, has written a letter to President Harrison and another to Governor Patton calling attention to the fact that the laws of the United States and of Pennsylvania have been violated by the invasion of the Pinkerton.

THE STATE OF TRADE

Bradstreet's Weekly Report of Business.

Cottons, Woollens and Boots and Shoes Are in More Active Demand.

NEW YORK, July 15.—Bradstreet's State of Trade tomorrow will say: Special telegrams from some of the more important business centers do not indicate any marked increase in the volume of general trade. The most noticeable exception is an increased demand and larger shipments by boot and shoe dealers East and West, a consequent improvement in the request for leather of all grades of quality is advancing, and more goods in hides. There is also a little improvement in inquiry for nails and bar iron at Chicago and other western points.

Omaha and Kansas City prices are firm and higher. On the Pacific coast, the most noticeable exception is an increased demand and larger shipments by boot and shoe dealers East and West, a consequent improvement in the request for leather of all grades of quality is advancing, and more goods in hides. There is also a little improvement in inquiry for nails and bar iron at Chicago and other western points.

Ember Cook Tries to Burn the Turkey

George Wade Cook the skilled fiddler now occupying a cell at the county jail for embezzling something less than \$1,000 from the Phoenix Furniture company.

George did not take off his coat and went to manual labor in wrenching of bolts and bars, O. that kind of work was distasteful to him and he thought he knew an easier way out of it. He had sized up Turkey Beaver and his men on a previous occasion.

Beaver acknowledged that the flour barrel was pretty empty and the milkman had not yet come. He was said that a shower of greenbacks would be sent to him in a few days.

When Beaver will be forgotten sufficiently, he replied by quoting from Shakespeare, "What fools we mortals be!"

SPECIAL RAILROAD TRIP.

A BOLD TRAIN ROBBERY

An M. K. & T. Train Held Up by the Daltons.

A Number of Routine Matters Disposed of by President Little of the board of police and fire commissioners is as yet unable to attend the meetings and yesterday's regular session was attended by Commissioner Brown, with acting president Loestger in charge.

The superintendent of police reported verbally that the department had arrested two boys for burglary and also caused the arrest of Mrs. Arnold, mother of May Arnold, for receiving stolen property. He also reported that several houses had been robbed during the past week and the detectives had failed in making an arrest.

Commissioner Brown asked the superintendent in regard to the charge of W. S. Hovey, agent of the old police headquarters property. Mr. Hovey stated that the patrolman engaged in removing the property from the old headquarters had maliciously injured the building by breaking doors and smashing window glass.

The superintendent stated that he had been informed in regard to that matter by the late Detective Kennedy and Transient Officer Frank B. Fox, who were the ones engaged in the work, but it is said that the officers denied breaking the doors but acknowledged bursting in the doors.

The superintendent was told to notify the police and fire commissioners. Dennis Mulhally, patrolman, asked for a leave of absence for twenty days.

Superintendent Eastman asked that two turnkeys be appointed at police headquarters. George W. Evans, M. L. Dibble were confirmed as police constables.

John Laughlin asked to be appointed as an operator at police headquarters; on file. David Rolson made application for position on police force; on file.

The position of patrolman to have their sleeping quarters at police headquarters was filled by Horace Pack, who will be relegated to patrol duty; adopted.

The salary of the janitor and assistant janitor at police headquarters was fixed at \$100 and \$75 respectively and the matron \$100 per year.

The following were confirmed in the file: William Burris, full time, ladderman, truck No. 1; Fred Muehler, full time, ladderman; James Sumner, A. Tolson, clerk at police station; Fred Hensler, full time, ladderman; James John Smith, lieutenant No. 1.

A book agent was on the carpet being asked to furnish a list of books for the following are some of the questions and answers:

"What business are you engaged in?" "I am an advertiser on the local paper."

"Do you drink?" "No, sir."

"Do you think you could resist the temptation of a policeman on duty?" "I think I could, say."

"Do you believe in a life of work?" "I believe I would."

"Are you an easy walker?" "I am."

There was a time the man Sargent, who was sweating blood, was accused and the meeting adjourned.

SAID SHE WAS A FENICE.

JULIA ARNOLD WAS ONE OF THE VICTIMS in the box at Police court yesterday morning.

POLICE AND FIRE.

Quiet Restored at Cour d'Alene Mines.

The Non-Union Men Are Sent Back to Their Work Under Guard.

WADSWORTH, Idaho, July 15.—Three passenger coaches, loaded with non-union men recently sent out of the country, returned here at 2 p. m. today. They were escorted by another special loaded with regulars, under Lieutenant Warder, on the trip toward Wadsworth.

General Carlin has issued a proclamation calling on all members of the mine district to work for non-union men. He issued another order commanding all strikers to be arrested wherever found, disarmed, and imprisoned. He also dispatched searching squads under the command of Capt. George W. Clark, July 15, to hunt for dead bodies.

General Carlin thinks that whatever was killed were thrown into the river. When the arrival of the troops brought the strike to a close, the non-union men were arrested. The arrested were taken to the Bunker Hill and Sullivan mines, where they were held until they were released by soldiers, who permitted them to leave the mine.

The entire working force of the mine will begin operations at once. At 4 o'clock the troops were scouring the town bringing in union men and placing them in the guard house. Fred E. O'Brien, who was arrested among the first arrested, said that President O'Brien and Dallas have also been arrested. About 100 men were arrested. The arrests caused intense excitement and trouble in Idaho.

QUINSEY DEAD.

Mrs. Quinsey Seem to Be Gradually Rallying—In an Inquest Held.

Just after THE MORNING PRESS went to press yesterday morning word was received that J. C. Quinsey had died.

An inquest was held yesterday afternoon at O'Brien's undertaking room. The following are some of the questions and answers:

"What business are you engaged in?" "I am an advertiser on the local paper."

"Do you drink?" "No, sir."

"Do you think you could resist the temptation of a policeman on duty?" "I think I could, say."

CASTING OUT A DEVIL

Remarkable Proceedings of a Priest in the Province of Bavaria.

One really has to stop and inquire whether one is living at the close of the nineteenth century when one reads the account of the adventures of a Catholic priest of Wendling, in Bavaria...

When the bishop of Augsburg visited the place the father, as a last resource, brought the boy to him, hoping he might cure him. The bishop approached the boy with great dignity and consciousness of power and exclaimed, "Thou canst not deceive me, Unclean Spirit!"

"After applying the same means as in the morning, I exhorted the devil to confess the whole truth, and then to leave the boy. After long exorcism he at last, with groans and sighs, said in a feeble voice, "Yes."

"The third time I conjure thee to declare the truth. Hast thou anything and thy companions left the boy? 'Yes.' 'Where art thou now?' 'In hell.' 'Thy companions were with thee?' 'Yes.' 'In the name of the most Holy Trinity I adjure thee for the third time to give some sign of the truth, or I will have thee again."

"The first devil had answered in an impudent and spiteful tone, but this last answer was quite unalloyed. Now the sign began to weep. It was the sign of a man who had really wept for only at the moment when he declared for the third time that he was in hell."

"A female with a fawn face first pursued by the Arabs, who killed the animal with their swords, and next day tracked and caught the fawn in the thorny mounds of the desert."

"The young girl was secured by a cord, the end of which was held by one of the Arabs. At the end of that time it was exactly taken, and the animal was carried away by the female camels which had been brought to supply it with milk."

"The young girl was secured by a cord, the end of which was held by one of the Arabs. At the end of that time it was exactly taken, and the animal was carried away by the female camels which had been brought to supply it with milk."

GRAFFES IN EUROPE.

THE DIFFICULTY OF OBTAINING THEM FOR EXHIBITION.

Julius Caesar Was the First to Import them for the Amusement and Entertainment of the Roman People.

The first giraffe seen in Europe since the tertiary epoch was obtained from Alexandria by Julius Caesar and exhibited at the triumph of the crocodile which he expected from its name, "camelopard," to find in it a combination of the size of a camel and the ferocity of an antelope.

The trade probably reached its maximum after it became the fashion to exhibit combats of wild beasts at Rome; yet even then giraffes seem to have been scarce in the popular shows.

The giraffe sent to England was in bad health and soon died, but the Parisian zoological gardens in 1826 received a pair of giraffes from Egypt.

But the successful expenditure by the British government in 1838, of a stock of giraffes for the Zoological Society of London, was due to nothing but the patronage of the noble English beyond permission to export them to the Zoological Society of London.

"The young girl was secured by a cord, the end of which was held by one of the Arabs. At the end of that time it was exactly taken, and the animal was carried away by the female camels which had been brought to supply it with milk."

Rationmaking Bombs.

A company engaged in the manufacture of explosives in this city has for sale now small bombs about the size of frankfurter managers, with which it is said the farmer can bring down small flocks of sheep or even a cow in a few showers of rain whenever he sees clouds over his land.

The constituents of one bomb are divided into two parts, liquid and solid, which are both separately nonexplosive. These can be kept separate until the time comes to use them, when they are mixed.

The solid part is about an inch in diameter and eight inches in length, and is wrapped in cotton. These bombs are placed in grooved tin boxes, each holding ten. A small tin measure, containing the liquid part, accompanies each box. It is graduated to show the quantity needed to saturate the bomb to the exploding point.

Five or fifty bombs may be used, according to the amount of rain needed or the detonation required. How the farmer is to know how much detonation is needed is a dubious matter. The bombs are tied in a bundle, a time fuse is attached and the whole discharged from a mortar and at the passing cloud.

In hilly countries clouds often pass over the valleys and discharge their contents on the barren mountain tops. In such regions, it is said, the bombs will be particularly useful.—New York World.

A City Marshal Arrested. One of the city marshals who took a vacation recently and went to France found what a big man a marshal over there is. As soon as the Frenchman saw the big city marshal get into several places of public interest in Paris at an hour when they were not open to the public at all the places were stopped and told that the places were closed. He said that he was an American and had only a short time to stay in Paris, and that if it could be got in then it would be too late. That made no difference until he happened to put his hand on his trousers pocket for some change with which to try to bribe the attendant. His coat was unbuttoned, showed his big gut back the lapel and he had his trousers pocket for some change with which to try to bribe the attendant. His coat was unbuttoned, showed his big gut back the lapel and he had his trousers pocket for some change with which to try to bribe the attendant.
