

Abstract

This index is limited to all identified building exteriors in the Robinson Collection. Approximately 7,600 buildings are listed either by address or other geographical indicator. The overwhelming bulk of the structures are located in Grand Rapids, Michigan, which is not explicitly indicated in this index to save space. The location of those few not in Grand Rapids are indicated in the index.

Collection #: 125
Accession #: 89.022
Donor: Library Purchase, May 1989
Span dates: 1935-1989
Processor: Richard H. Harms, November 1993

Scope and Content

The entire collection contains eight negative series, totalling nearly one million images. Of these, five series contain views of structures, and are included in this special index. More extensive indexing and access to all eight series are possible through the collection's principal finding aid and database.

The listing that follows indicates location, date of image, and folder location number (called "negative number") of the image within the collection. In most cases several views are available for each number. The negative number also indicates the series in which the image exists. Series in this index can be identified according to the following designations:

R series -- chronological/numeric system established by the studio preceded by the letter "R"; 8"x10" film negatives; 1935-36; range: R35001-R36999; boxes 223-227 of the collection.

(*) Number series -- numeric series established by the studio; 8"x10" film negatives; 1937-38; range: 700-3385; boxes 228-247 of the collection.

E series -- alphabetical series established by the studio (number with "E" preceding added during processing); 8"x10" film negatives; 1939-1960; range: E0001-E2777; boxes 189-222 of the collection.
